

**ADINA KAUFMAN
ARCHITECT
CURRICULUM VITAE
Caracas, Venezuela
Phone: (58-414) 255-2525
E-mail: adinakk@gmail.com**

I am an architect with educational and employment experience in the field of architecture and construction, including 3 years of teaching in a university setting.

While studying in the university I worked for 5 years in a landscaping architectural firm. I have more than 25 years of experience in architectural design, project management, interior design, and remodeling. I have played a central role in the architectural design of major projects for “Hebraica”, the Jewish Community Center of Venezuela, including the elementary school library, the gym at the recreation center, the institution’s main entrance, the youth department and the new kids pool, elementary and high school buildings, among others. Im also part of the Board of Directors of the Venezuelan JCC, for mor than 10 years.

I am seeking a position that will require my architectural background. I am eager to apply my skills in a dynamic, results-oriented environment.

I am fluent in English and Spanish and I am able to communicate orally in Hebrew.

Already an american resident, I am currently searching for a place to move due to the political situation and insecurity of all types that we are experiencing in Venezuela. At this moment of my life I’m ready to take a new path, where my knowledge, experience and enjoyment of new and difficult challenges can be put to work as well as my desire to work with anything related to design.

My sister lives in Denver, already for 10 years, so i would love to live next to her.

Most of my professional life has been with my own company, “Gavlovski & Kaufman Arquitectos”, based in Caracas, Venezuela, a company devoted to projects, supervision and construction management.

We have developed our experience with emphasis in office, commercial and residential projects, as you can see in the resume attached.

My long time goals have always involved design and pursuing goals that I can follow through to its completion. Please contact me at adinakk@gmail.com.

I understand that I may be going into this new venture at an entry level, and I'm willing to take the challenge and prove myself.
