

- > I am looking for part time employment preferably as a liaison in a
- > medical setting, but am also open to working in other businesses or with
- > groups of businesses. I have enabled those with whom I've worked to run
- > smoother operations and to create more cooperation and less hostility
- > within their own organization or among those within their group.
- >
- > I served as a patient advocate, getting the best care for my clients by
- > interacting with many medical providers and making sure all communicated
- > with the patient and each other in a clear and constructive manner. In a
- > different area, I headed innovative film cooperatives, one between a
- > public library and a school district and another between many public
- > libraries. The end result was that all benefited, since the whole was
- > greater than its parts. Every participant had access to a more extensive
- > film collection than each had individually.
